* * * * *

Census taken by H.B.Parker. no precincts given but the Post Offices were listed as Sauvies Island and St. Helens, at times, tho West Port appears in a few places as the Post Office. Top of page 21 is Beaver Valley then crossed off and Rainier precinct written above it.

Population of the County in 1870 was 863 persons. 2 are listed as idiotic. I did not watch the side columns. There is a better breakdown if one is interested in it, if one cares to look into the film.

Clatsop County

House No.	Page No. stamped	Post Office	Precinct
1-21	98-99	Astoria	Clatsop Plains

Washington County

This county has no Precincts listed in the chart I received from the State Archives.

Tillamook County

1-11	574	No Post Office in the	Tillamook Bay
12-24	573	sub division. Mail was	Hogarton
25-31	574	sent out from Forest	South Prairie
		Grove Post Office.	

I do not know that there is such a chart of the 1870 Census.

Most of the time I use the spelling of the man who took the census even tho at times I know it is now spelled differently. A very few times I have had to figure so at those names or numbers with a question mark it shows that I was not sure. The researcher must study the original microfilm and see what they make of it. They may have a different interpretation of it. Most of the film is fairly clear tho the 1860 census in many Counties is very hard to read.

I also find that these do not compare at all with the 1870 ones. Some one gave the wrong information some of the time. A search of the 1880 census may clear up some of this trouble. I have been told that often an entirely different person often gave in the information and hence it is incorrect. A man may be absent and a neighbor wishing to help the census taker offered information which he thought might be fairly accurate and it was not. I have found this true in the same county when the census taker has repeated an area, not realizing that he had taken this family before. In some instances the data is the same but in some it is entirely different.
